Zihao Wang

PhD Candidate, Chair for Energy, Comfort and Health in Buildings
Technical University of Berlin | Hermann-Rietschel-Institut
Email: zihao.wang@tu-berlin.de

Research Interests

AI4CFD; indoor air quality; deep learning; neural operators; CFD.

Education

Technical University of Munich, M.S. Medical Engineering and Assistance Systems, 2021-2025.
Technical University of Munich, M.S. Mechatronics and Robotics, 2021-2024.
Beijing Institute of Technology, B.S. Energy and Power Engineering, 2017-2021.

Experience

Audi AG, Master Thesis, 2024-2025. CFD simulation of automotive cabin airflow and scalar transport.
Lehrstuhl fuer Foerdertechnik, Materialfluss, Logistik, Working Student, 2023-2024.
TUM School of Engineering and Design, Master Thesis, 2023-2024.

Publication

Cetin, Yunus Emre; Zihao Wang; Gerrid Brockmann; Martin Kriegel. Ventilation Effectiveness in a Test Room: Experiments and CFD Validation. IAQVEC 2026. doi:10.1051/e3sconf/202671601055

Teaching

Energy Simulation (Energiesimulation), Lecturer, Winter Semester 2025-2026.
Computational Fluid Mechanics in Indoor Air Quality, Lecturer, Summer Semester 2026.
